

Freedom Education Tablet (FET) — Ages 2–6

Fully sealed | Early Childhood Edition

Description:

A rugged, child-safe, fully offline early-learning tablet designed for toddlers and young children in homes, ECD centres, refugee settings, and foundational literacy programs.

Loaded with Oville World, Master Hoobee ESL foundations, Alwaha early Arabic, and pre-school learning apps.

Purpose-built so children cannot alter, damage, or tamper with the device. Completely sealed units.

Screen:

8.0" IPS display, 1280×800 resolution, 400–500 nits brightness, anti-smudge and fingerprint-resistant coating.

Build:

Fully sealed, waterproofed housing with heavy yellow bumpers and character moulds integrated into the casing.

Drop-tested to 1.2 metres; rounded edges for safe toddler handling.

Battery:

6,000–8,000 mAh long-life battery tuned for low-power early-learning apps.

Compatible with solar-film charging for off-grid environments.

Ports:

None. No USB, no headphone jack, no openings of any kind.

Connectivity:

None — no Wi-Fi, no Bluetooth, no SIM, no hidden radios.

OS:

Locked-down early-learning OS with fixed content set, parental-proof configuration, and protected partitions.

Special Design Intent:

Specifically engineered for 2–6-year-olds, including toddlers with developing motor skills.

Device cannot be opened, reset, altered, or misused, ensuring total safety and content integrity.

Bright Yellow, corner bumpers, characters in mould
