

Freedom Presentation Tablet (FPT)

National & Civic Edition

Not sealed | Standard USB-C | Delivered in box with stand-alone solar Charger

Description

A premium offline tablet used for national campaigns, civic education, commemorative events, donor presentations, and special leadership programs.

Designed for adult and youth audiences in non-classroom, non-curriculum settings requiring high-quality video, speeches, animations, and national storytelling.

The device itself is not solar-powered; it is packaged with a dedicated external solar charging case to enable off-grid use.

Screen

- 10.1" or 11" laminated IPS display,
- 1920×1200 resolution.
- Colour-calibrated for video, photography, and presentation content

Build

- Premium finish with national branding and optional engraved insignia.
- Durable enough for field programs while maintaining a refined appearance.
- Protective edges inside the case prevent damage during transport.

Battery

- 7,000–8,500 mAh high-capacity battery suitable for continuous video and audio playback.
- Charging is done via the external solar case or standard USB.

Ports

- USB-C intentionally exposed (not hidden), allowing direct charging and controlled updates.
- Optional HDMI-out (depending on model) for events or big-screen presentations.

Connectivity

None - no Wi-Fi, no Bluetooth, no SIM, ensuring full security and content integrity.

Operating System

Offline Presentation OS with fixed content sets, country-branded boot sequence, and protected media partitions.

Special Design Intent

Created for heads of state, ministers, donors, diaspora leaders, national day ceremonies, historic commemorations, and civic education campaigns.

Delivered in a solar charging case to guarantee usability during travel, rural outreach, and events with no electricity.
